SiT Sustainability in TCLF

We are excited to share the latest news and early project updates in this edition of the SiT newsletter. The key highlight of this issue is the announcement of our upcoming bootcamp, which will take place in Greece.

Co-funded by
the European Union

Hosted by our **Greek partners**, this international event will take place in **Thessaloniki**, the historic and vibrant city of northern Greece. It will **bring together participants from all partner countries** who are motivated to contribute to the transition towards a greener Textile, Clothing, Leather and Footwear (TCLF) sector.

The **10-hour Bootcamp**, delivered in a hybrid format, will **focus on the development of joint project ideas and collaborations**.

It represents a natural continuation of the project's development phases, supporting innovation, cooperation, and practical progress towards sustainability.

Let's keep in touch!
